Tom Meeker Natural Edge Turning

Tom Meeker demonstrated how he turns natural edge bowl. It was a very good presentation covered all the steps he uses to produce his

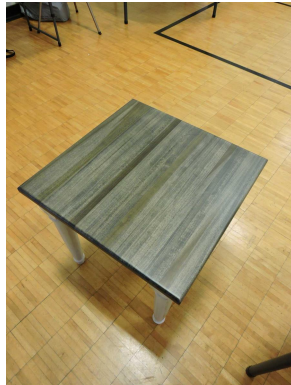

Business

We had an inquiry from an individual who is looking to purchase a used 16ö or larger lathe. Should you know of anyone that has one to sell please let us know and we will give you the contact info.

Personal Notes

- ◆ I must apologize to Tom Meeker, Mike Hamilton, Eugene Gabbartd. I did not do an adequate job of keeping notes of Tom's presentation. The pictures of the items Mike and Eugene brought for show and tell were completely out of focus.
- ◆ I was lucky enough to attend a workshop with Binh Pho at Marc Adams school earlier this year. I have admired his creations since I first saw them; use of color, techniques, design. He was extremely talented. His class presentation was great, individual attention, answered any questions. The class I took was the first of two he was to give this year, the other scheduled for the last weekend in August but he succumbed to cancer prior. I wanted to let you know Marc did the logical thing in offering to apply the deposit I had made to another school, carry it forward to next year or simply refund. I did not have to ask.

Help Needed

- ◆ We need let Rich know what topics we would like to have covered in future presentations.
- ◆ If someone wants to take over the newsletter please let me know. I want to stop next year. I will not be at either the November or December meetings, doing shows and may not be here in October.ô Alan
