317-402-5278  
BobAnderson@tds.net

**Treasurer:**  
Mike Hamilton  
317-839-5445  
mrbuddha@iquest.net

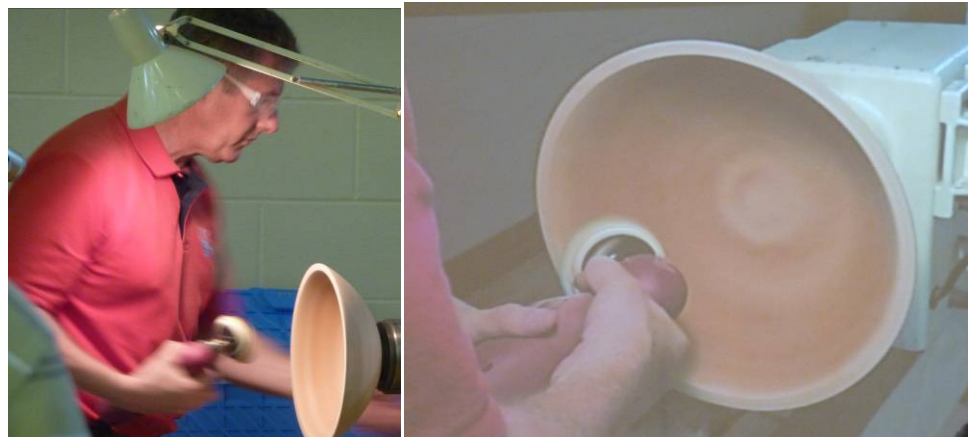

**Secretary / Newsletter:**  
Angie Danner  
317-902-1482  
gadanner@sbcglobal.net

**Librarian:**  
Ron Cruze

Vince Welch from VincesWoodNWonders.com gave the demonstration at the June meeting. Vince explained that not all sandpaper is created equal. The backing, the adhesive and the abrasive material used in the manufacturing of the sandpaper can all change the performance of the sandpaper and therefore the results you get on your turned masterpiece.

To achieve the best results, Vince recommends that you do not skip grits when progressing through the sanding process.

Vince used a right angle drill with a sanding pad to sand his bowl and remove all tool marks left behind. 🌀

# Future Turning Events
