## January's Program

Stan Mullin demonstrated how to turn pendants

Stan demonstrated how to make a medallion with a turned disk and a copper insert. The turning of the wooden disk was shown. You need to turn both faces of the piece, the front side receiving a pocket for the copper insert. Stan then showed us a couple of techniques for "coloring" the copper insert. You have to clean the copper using "0000" steel wool. Stan used a small butane torch to gradually heat the copper to make "flame" looking coloration's on the copper. This takes a bit of trial and error to find something you like. You can scrub off the effect with the steel wool and try again if you don't like what you got. He also demonstrated using chemistry to generate some coloration. He showed us the effect of using ammonia, salt and vinegar (a mild acid) to turn the copper a darker smoky looking effect. It was a fun demonstration.

## Business

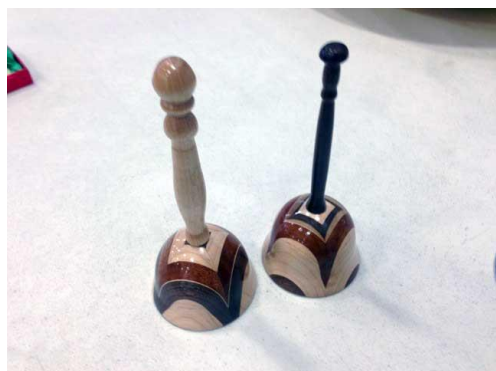

- ◆ We have contracted with the Boys and Girls Club for meeting location during 2017. Meetings are the second Sunday of each month with May and July exceptions. May meeting is the third Sunday, the second Sunday is Mother's Day. July is our annual picnic. Time remains from 2:00 pm until 4:00 pm. This includes the December meeting. We have the option to change times should we want.

## Indianapolis Woodworking Show

Once again this year we will have a booth at The Woodworking Show at the Indiana State Fairgrounds. Last year we had a 20 x 20 booth with four lathes running all weekend long, with members providing live demonstrations for the public. We also worked with the show organizers to assist a handful of guests turn their own ink pens. On top of all this, Jim Dupler was present with his treadle lathe. We had a great time last year and are looking forward to a repeat performance this year. We are currently planning to have the same setup and are scheduled again this year to turn pens with the public. This event is our best opportunity to get the word out to the woodworking community about our club and the benefits of becoming a member. Thanks to everyone that helps with this event. We couldn't do it without you.
